

Healthy Hearing Ears

Improving outcomes in COM-related hearing loss

You are welcome to join the **Healthy Hearing Ears Advisory Board** for the second online seminar on the treatment of chronic otitis media related hearing loss. In this seminar we will present the latest research on COM-related hearing loss, and you will be able to take part in an interactive case discussion.

When: October 14, 2021

10:30-12:00 East Coast Time

16:30-18:00 Central European Time

20:00-21:30 India Standard Time

Please register for the event through this link:

https://healthy-hearing-ears.idloom.events/HHE_seminar

Tentative agenda:

Outcomes from multi-center study on quality of life in COM-related hearing loss

Dr. Xabier Altuna, San Sebastian, Spain

Preliminary outcomes from multi-center study on cost and quality of life in treatment of COM-related hearing loss

Prof. Fazil Necdet Ardic, Denizli, Turkey

Dr Emine Demir, Istanbul, Turkey

Interactive case discussion on treatment of patients with COM-related hearing loss

Advisory board and guest speakers

Healthy Hearing Ears Initiative

Objective:

Gather clinical evidence to raise awareness on the current challenges, optimise treatment guidelines, and support access to effective treatments of COM-related hearing loss

- 1 Drive clinical studies and literature reviews to define outcomes of current treatments for COM-related hearing loss
- 2 Create a pack of research instruments to encourage and facilitate independent research
- 3 Advocate for updated treatment guidelines
